

# DEVELOP OF WEB APPLICATION

**Team ID** : PNT2022TMID29870

**Project** : Smart Solutions For Railways

QR Code:

- In order to get the details of the journey of the passenger a node red flow is created
- Here the passenger must give their boarding and destination station and the seat also.
- The personal details like name and mobile number of the customer is obtained.
- All the details from the passenger is stored in IBM Cloudant DB.
